How do I enable Apple Healthkit?

Alex Lisowski

a few seconds ago · Updated

Follow

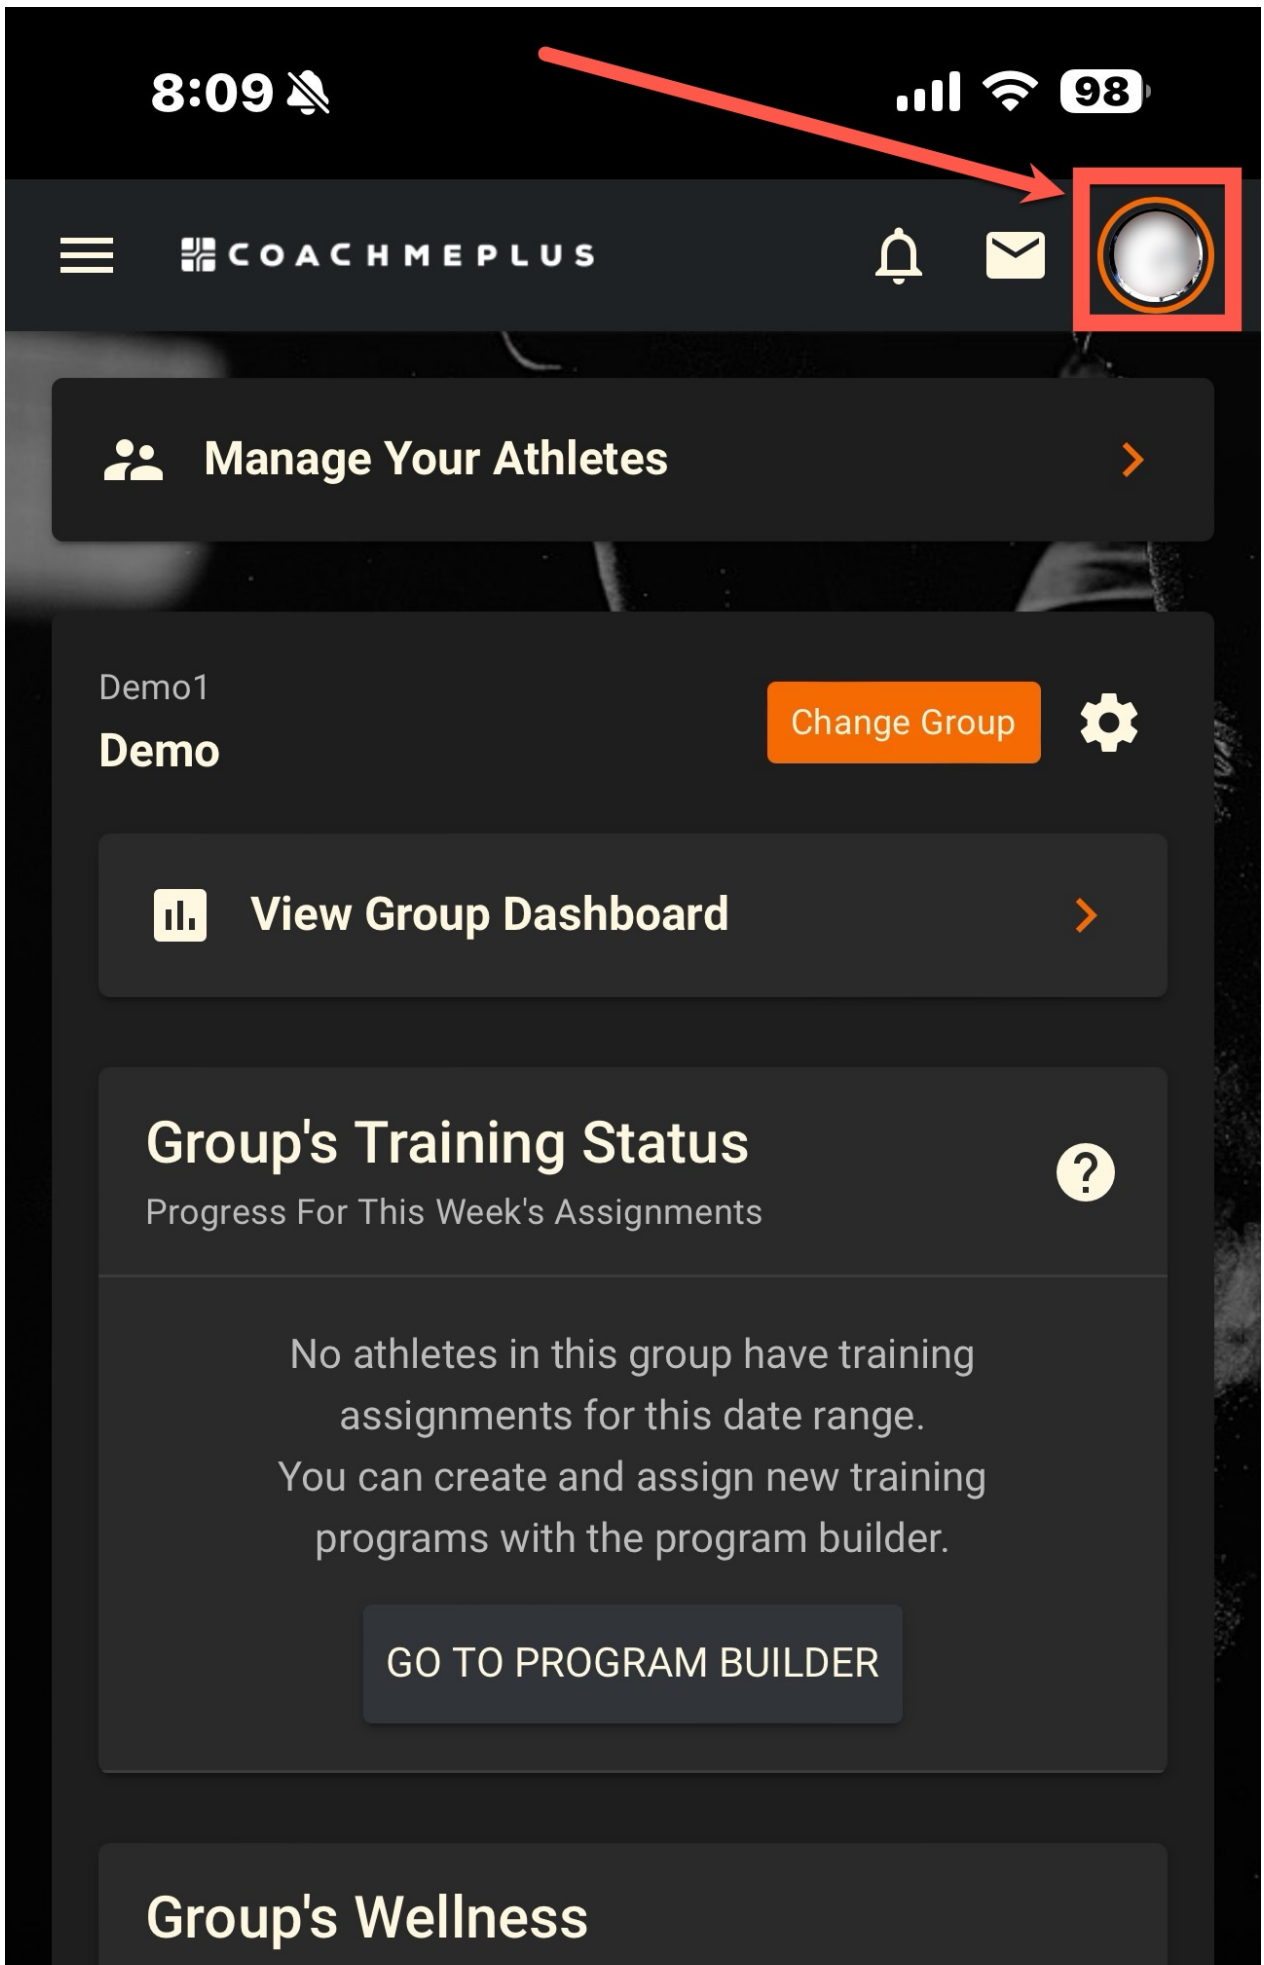

Apple Healthkit is a tool that allows your **Athletes** to centralize all of their **Data** for automatic **Import** into **CoachMePlus**. This **Data** comes into the system every few minutes for live updates in all **Visuals** and **Reports**. Watch our How To video and follow the steps below to enable **Apple Healthkit!**

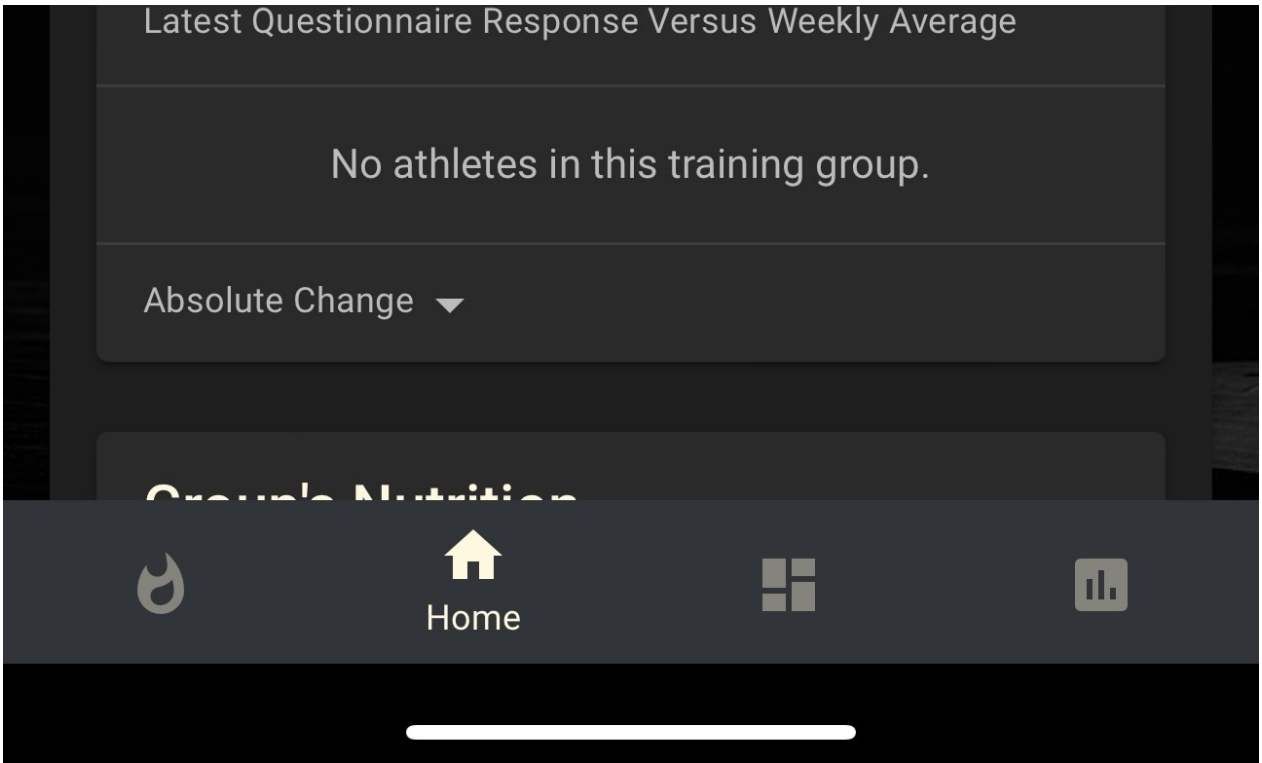

How To Setup Apple HealthKit for the First Time In Coach...

 Help

1. Log in to the **CoachMePlus** app, open the side menu and tap on your name.

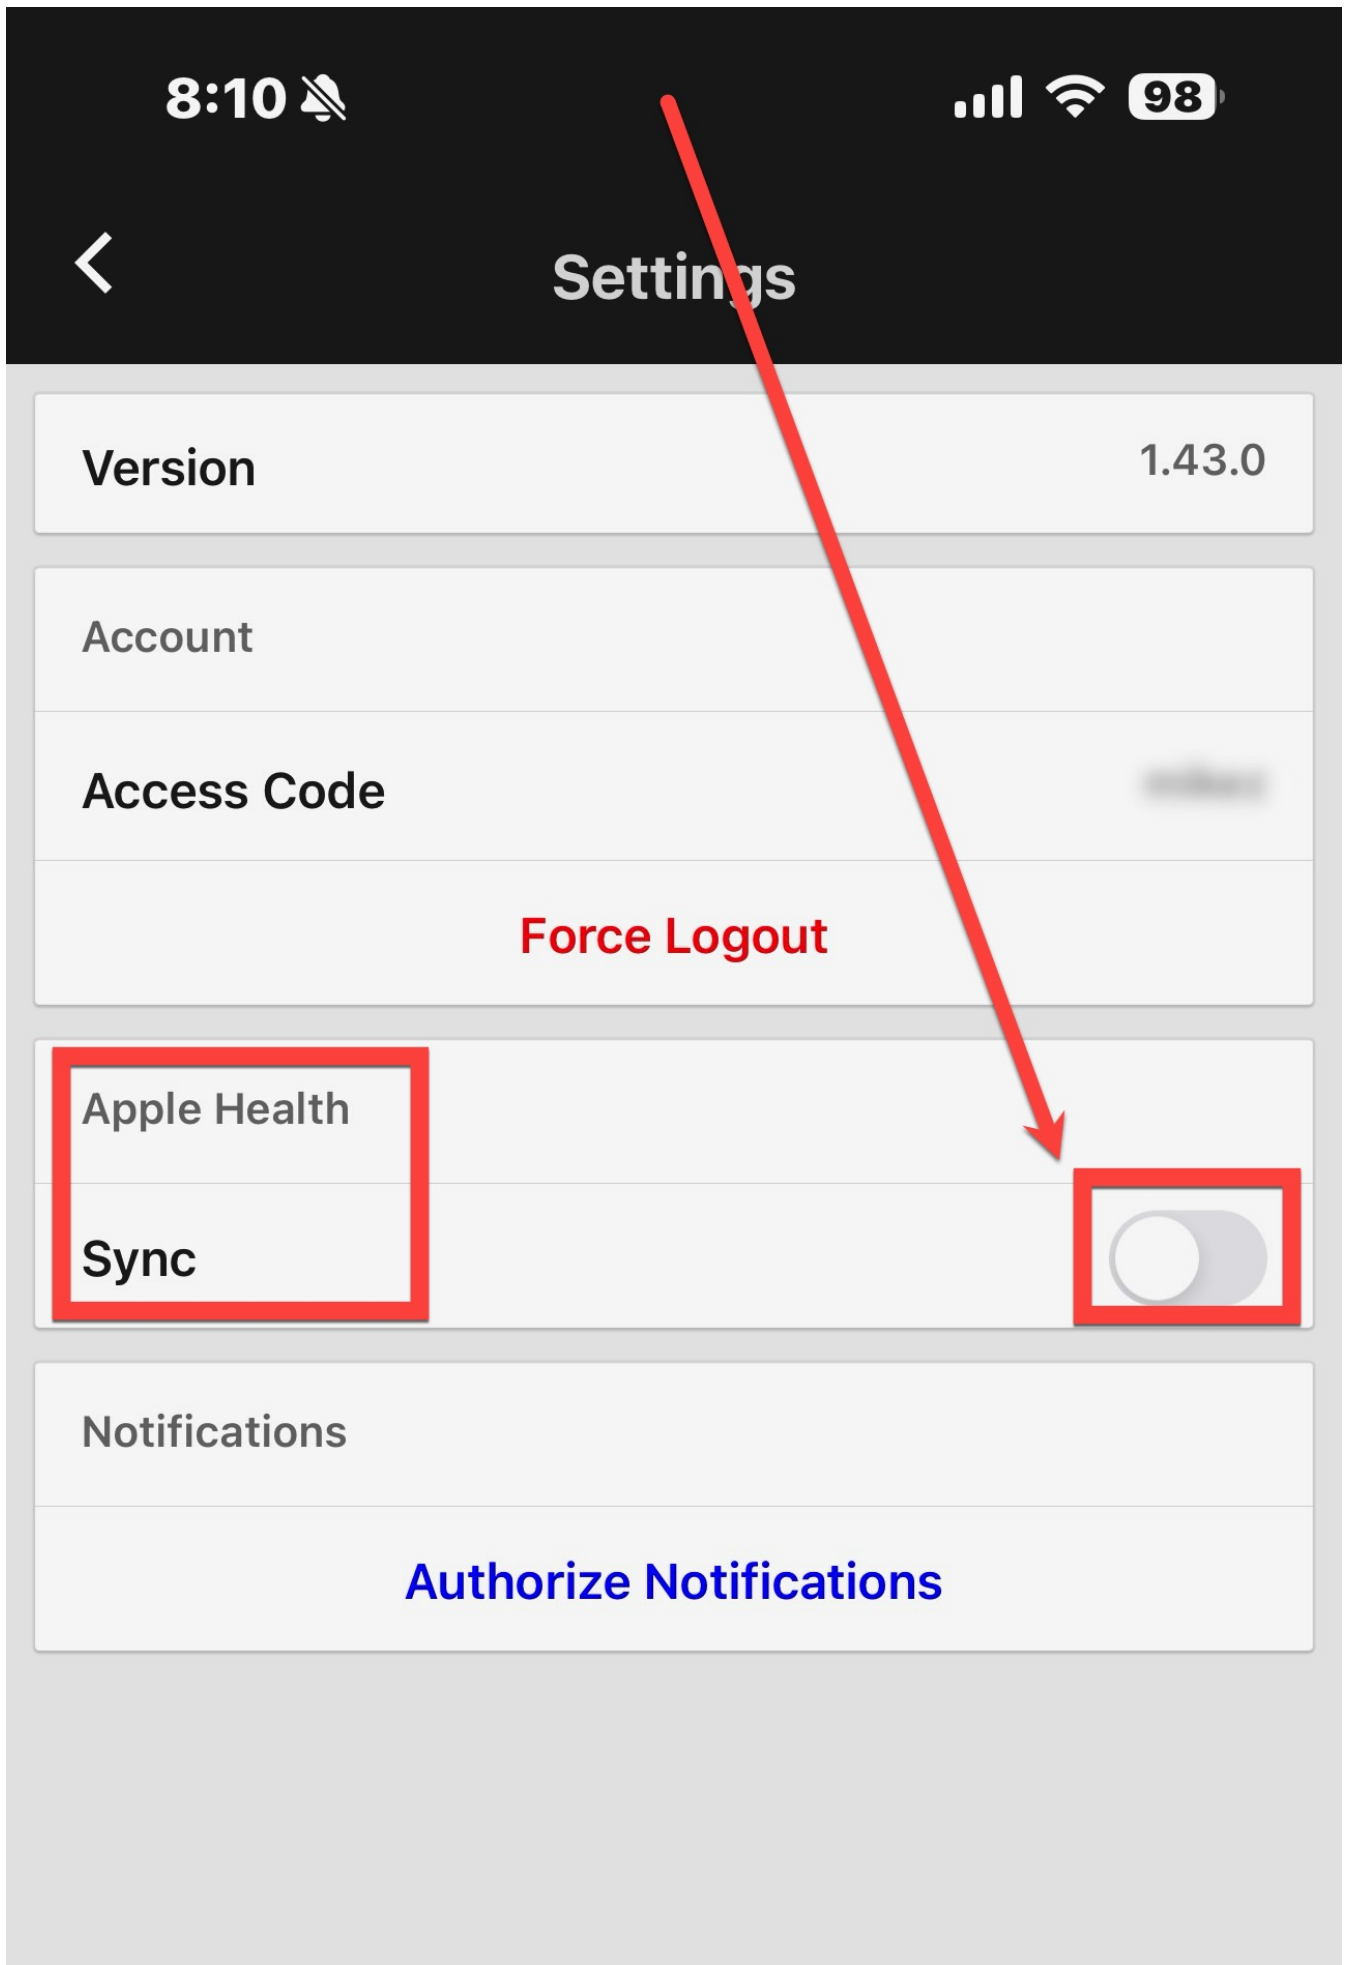

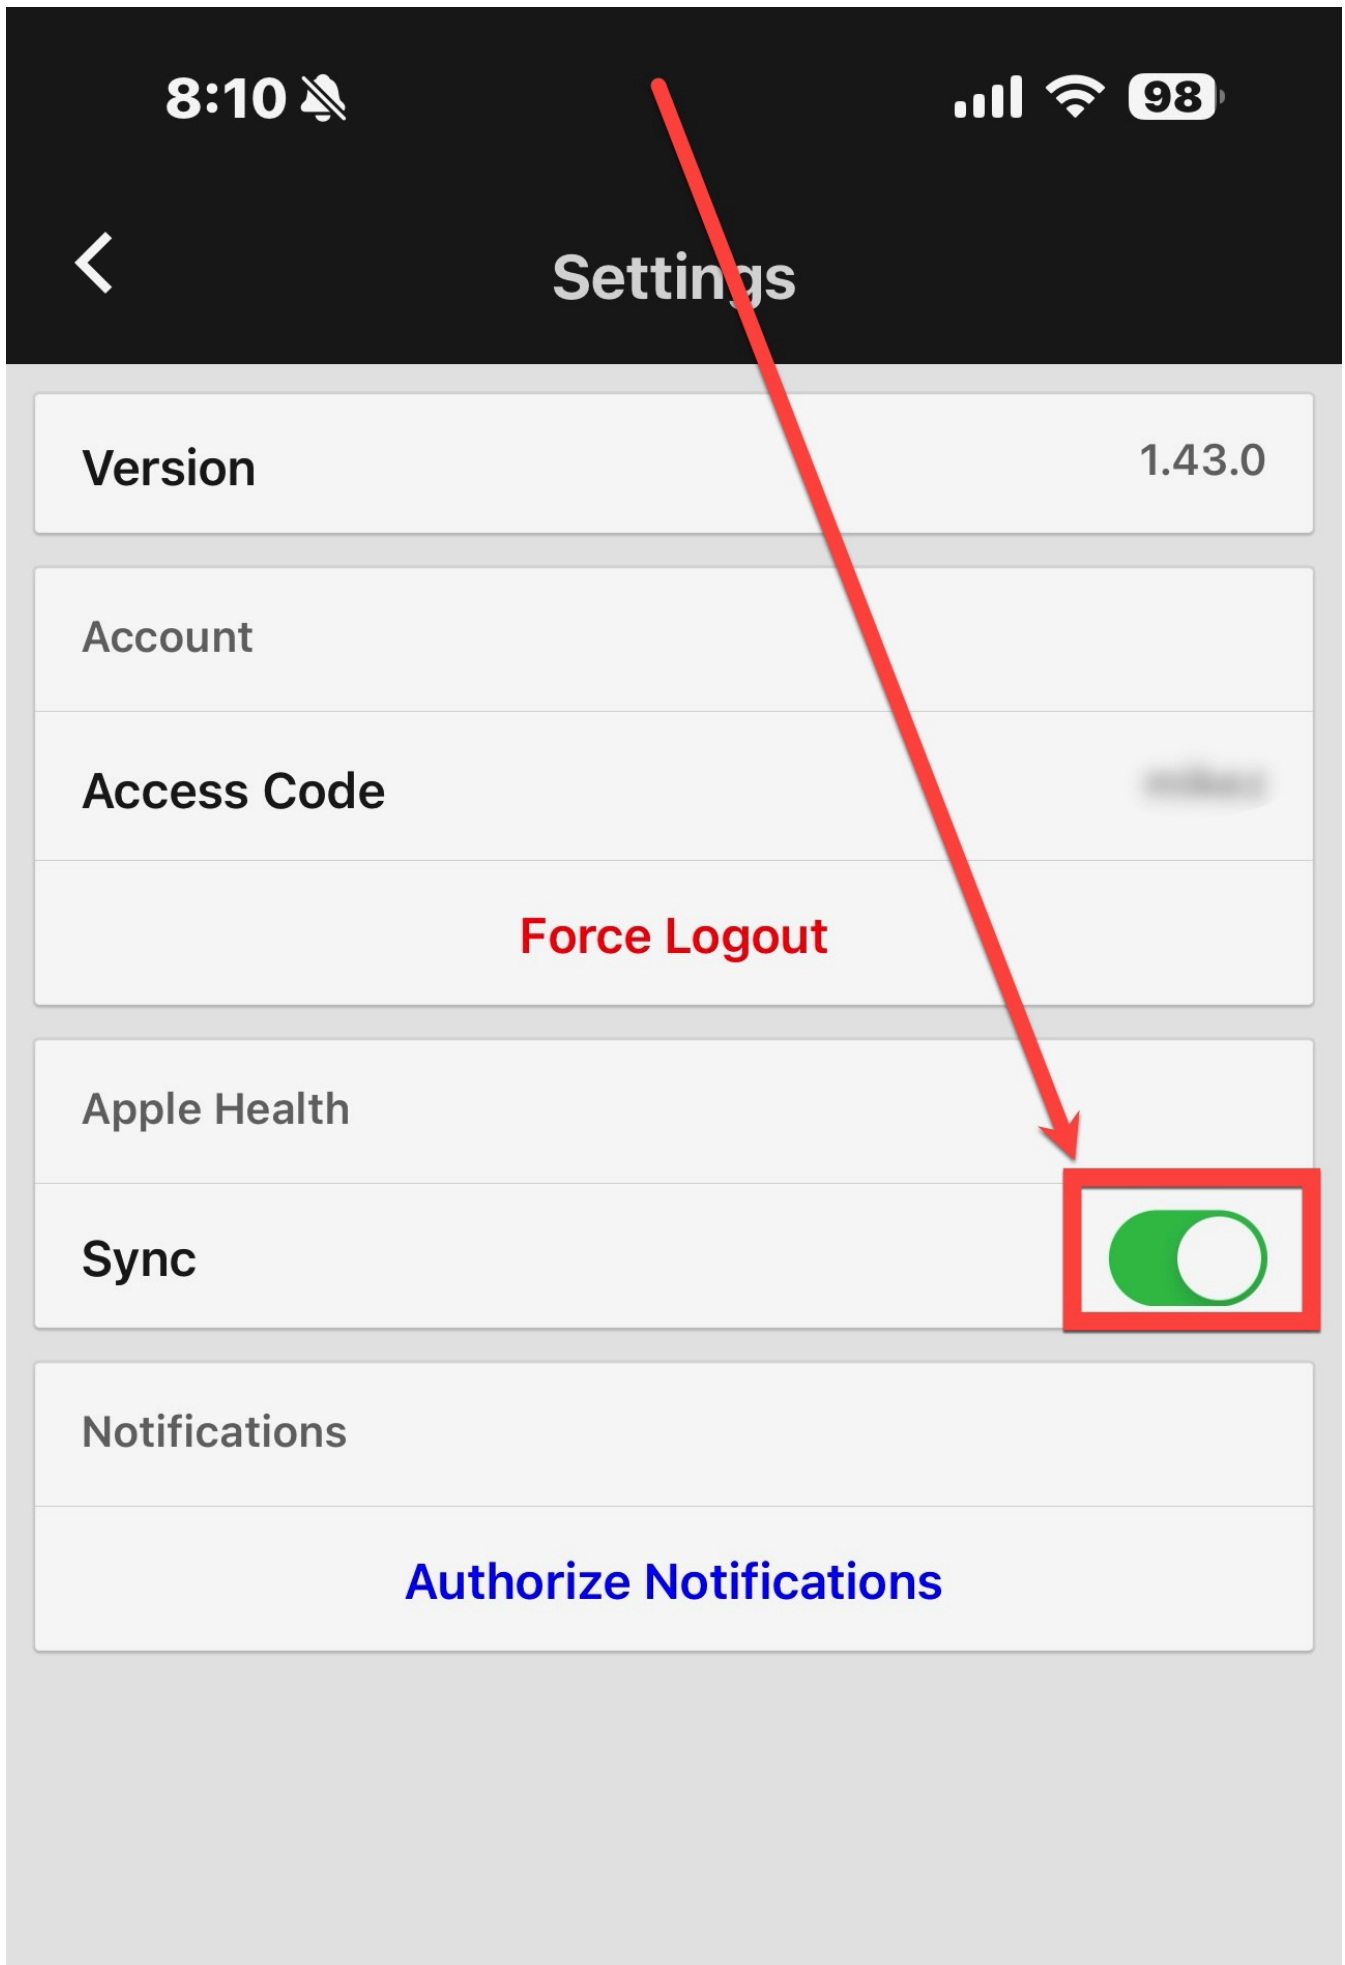

2. Select **Settings** and then **Authorize Healthkit**.

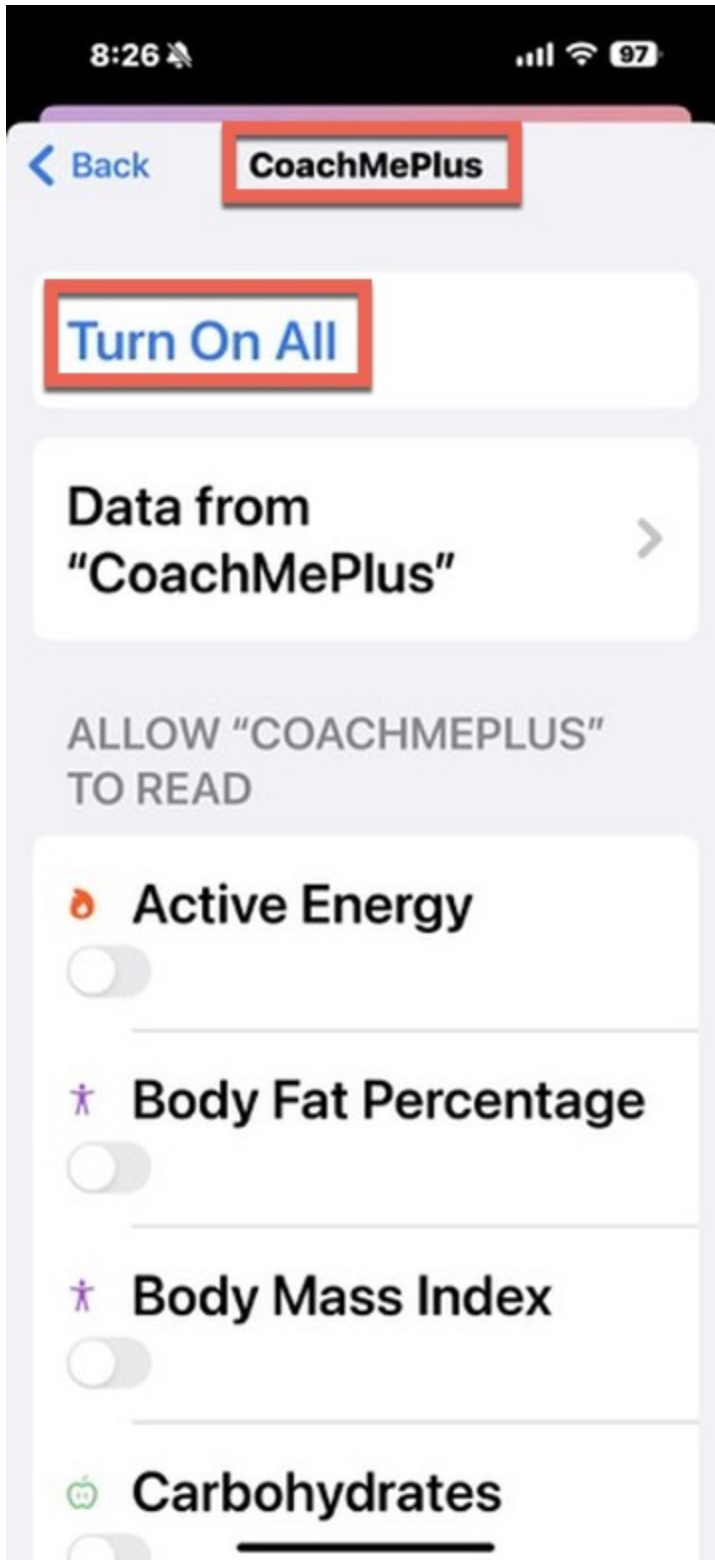

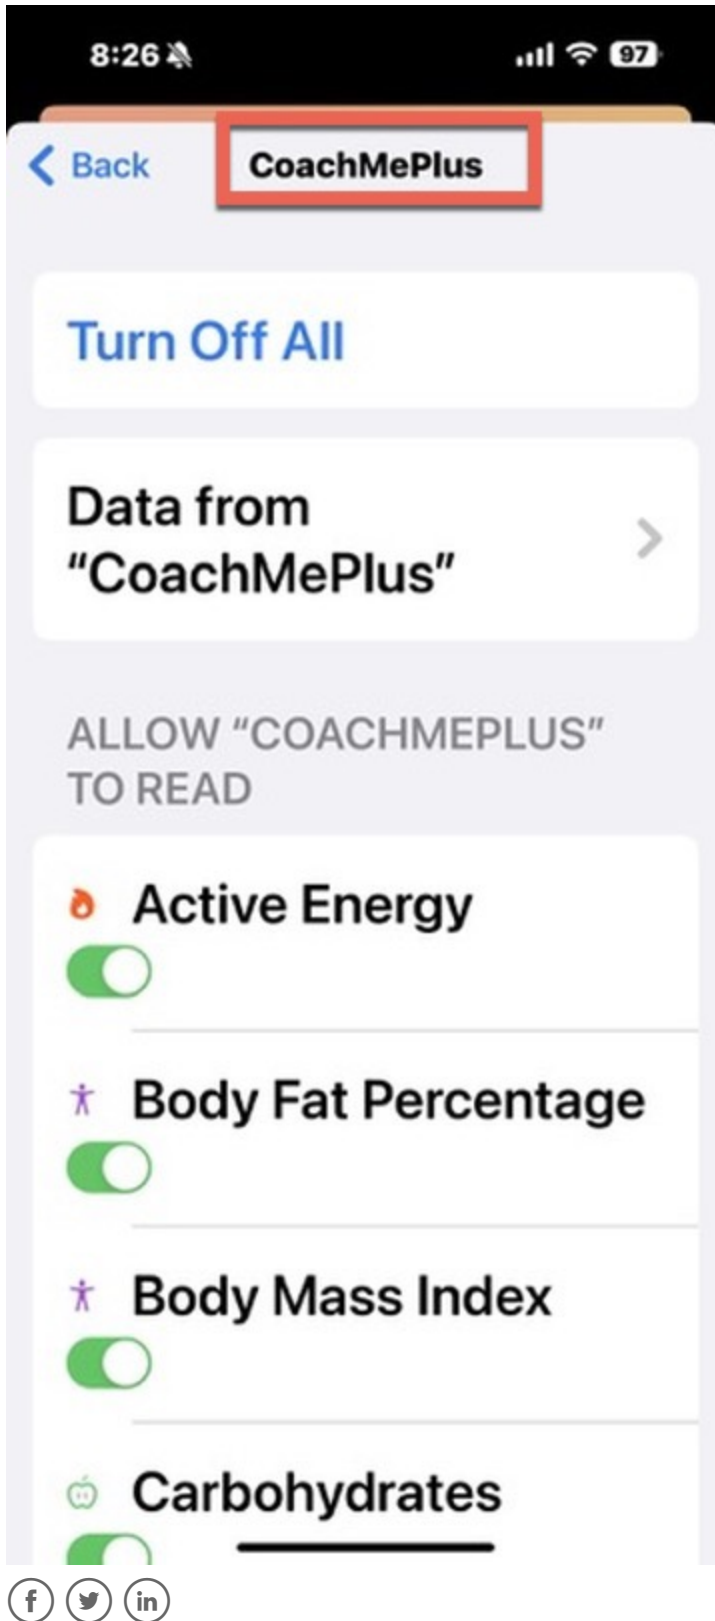

3. Select **Turn All Categories On** or just enable the ones you want to pull into **CoachMePlus** and select **Allow**. You have now successfully enabled **Apple Healthkit**.
